Information on the New Royalty Framework

We have recently published Information on the New Royalty Framework for the October 30 and 31, 2008 training sessions. It is available on the Alberta Energy Internet address: www.energy.alberta.ca, from "Our Business", navigate to "Natural Gas", "Legislation, Guidelines & Policies", "Gas Royalty Information Bulletins". In addition, this document is also available under "About Us", navigate to "Royalty Framework".

The October 30 and 31, 2008 training sessions on the New Royalty Framework are full. Please email Wendy.Stenbeck@gov.ab.ca to add your name to a waiting list for possible future sessions. The dates for the future sessions have not yet been determined.

Operating Costs Subject to Recapture

The Potential Operating Costs Subject to Recapture report for the 2007 production year was generated for the last 4 months and sent to the Registry. Operating costs are recaptured from a royalty client who has volumes at a facility but have no capital allocations (AC1, AC2, or AC3) and no reported custom processing fees (AC5). A royalty client who is not an owner at a facility is not entitled to the operating costs they received on a monthly basis. The operating costs subject to recapture were charged in the August 2008 billing period invoice, issued in October 2008. It is recommended that all royalty clients with 2007 production check for these charges, plus associated prior period interest, on the August 2008 billing period invoice under the charge type Annual Custom Processing Fee Adjustment.

C. MONTHLY INFORMATION

August 2008 Royalty Due November 30

- **Royalty clients are to remit the total amount payable shown on the November 2008 Statement of Account by November 30, 2008.** If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.

- **The November 2008 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your August 2008 Invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.**

- Current period interest will not be charged on current invoice charges for the production month of August 2008 if it is paid in full by November 30, 2008.
- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

  Note: If the due date falls on a non-business day, the next business day will apply as the due date.

- Cheques are payable to the Minister of Finance, Province of Alberta.

September 2008 VA4 Due November 15

The VA4 forms for the production month of September 2008 are due in the department offices by November 15, 2008.

Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.

Registry Deadline Submissions

The Registry deadline submissions for SAF, OAF, and Volumetrics are posted in the Petroleum Registry of Alberta website "Reporting Calendars" under Bulletin Board.

Changes to this calendar will be posted on the Registry website home page in "Broadcast Messages."

Interest Rate October 2008

Alberta Energy's interest rate for October 2008 is 5.75%.

July Provisional Assessment Charge

The summary of Provisional Assessment Charges for all production periods in the July 2008 billing period was:

First Time Provisional Assessment	Reversals of Provisional Assessments	Net Provisional Assessment

D. INFRASTRUCTURE DATA CHANGES

Client ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petroleum Registry website at:

http://www.petroleumregistry.gov.ab.ca

The department reminds Business Associates to review their WIO role to ensure the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.

- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.

- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395 if you have any questions regarding the information supplied on this listing.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under Facility Royalty Trigger Factors and Meter Station Ties.

E. REMINDERS

New Royalty Framework Update to the User Defined File Handbooks

Effective the January 2009 billing period invoice, issued in the calendar month of March 2009, the following changes to EDI documents will be implemented:

INVUDF

- Charge type "044 - Monthly Operating Cost Deduction" will be added to the invoice detail information (record 33)

CRDUDF

- Vintage tiers for natural gas will be eliminated; as a result, there will be a single royalty rate applied to Gas, Ethane and Pentane products, and Vintage Adjustments will no longer be given.

  The Natural Gas Royalty Rate formula is now based on the price and well production of the well producing that gas. Details of the royalty rate calculation will be given in the accompanying "Well Event Average Royalty Rate" details report.

To allow for compatibility with the existing UDF structure, all natural gas can be treated as 100% "OLD" vintage. This will result in no Vintage Adjustments being given and the "Old Royalty Rate" now being the Royalty Rate applied under the new Royalty Regime.

- Corporate Average Prices and the Low Productivity allowance have been eliminated; as a result, CAP and Low Productivity adjustments will no longer be calculated.

Software providers and industry members who have requested this information, from the Business Systems Coordination team, have been notified of this change. As a precaution and to ensure that all software providers have been notified please forward this information as deemed necessary.

To view the changes in the UDF handbook, go to the Natural Gas website's Royalty Related Information page, under Crown Royalty Detail Statement (January 2009) and Invoice (January 2009).

For further information or to coordinate testing of these changes, please contact Penny White at (780) 422-9261.

Royalty Payments

Wire / EFT (Electronic Funds Transfer)
For gas royalty payments made by wire /electronic transfer; the beneficiary name on the electronic funds transfer form should be reflected as Gas Royalty. Payments are to be made payable to the Minister of Finance.

Rapid Trans Deposit Slips
Further to Appendix K of the Alberta Natural Gas Royalty Principles and Procedures, royalty payers are required to fax a copy of their rapid trans deposit slip to the Financial Services Division Cashiers at fax number (780) 422-4281 for the following reasons:

- Your Alberta Energy Rapid Trans Deposit Slip is our notification of your payment remittance and is reconciled to the bank information we receive from the Canadian Imperial Bank of Commerce.
- The Canadian Imperial Bank of Commerce does not provide a copy of the Alberta Energy Rapid Trans Deposit Slip to our offices and have implemented a charge per deposit slip if they are requested to provide this information on a client's behalf.
- We require the information from your Alberta Energy Rapid Trans Deposit Slip to ensure your payment is allocated promptly to your gas royalty account.

Royalty clients are reminded that payments may be made by the pre-authorized automatic debit method. Additional information on automatic debit payments are included in the July 2005 Gas Royalty Calculation Information Bulletin.

For further information you may contact Susan Weedon of Gas Royalty Accounts at (780) 422-9267 or Donna McLachlan of Financial Services at (780) 422-2872.

Statutory Requirement and Recalculation of 2004 Royalty

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis.

Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:

1. On the department's initiative in conjunction with an audit or examination; or
2. At the request of a royalty payer.

Audits in Progress

Non-operator partners are advised that certain 2004 allowable costs, custom processing fees, capital costs and custom processing adjustment factor (CPAF), and reporting discrepancy audits are currently in progress. It is anticipated that these audits may be completed before Dec. 31, 2008. However, should circumstances require that these audits be completed in 2009, a list of the affected ERCB facilities will be included in the December 2008 Information Bulletin.

Royalty clients are also reminded that amendments received by the department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the department to commence a review of the amendments prior to the end of the year, the department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Kris Pretty of the Compliance & Assurance group at (403) 297-8785.

Industry Recalculation of 2004 Royalty

Industry initiated royalty recalculation requests for the 2004 production year must be submitted in writing to the attention of Richard Stokl, Manager of Gas Royalty Client Services. This request must be received by the department on, or before, December 31, 2008 and it must include the following:

- Identification of the recalculation facility or facilities;
- The reason for the recalculation;
- An order of magnitude estimate, i.e. the approximate amount of the royalty impact;
- Identification of the royalty clients that may be impacted by the request;
- The time lines for recalculation preparation and submission to the Crown including a reasonable time for the Crown to review the submission; and
- Confirmation that the affected partner(s) have been notified.

If you have any questions regarding this process please contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

Petroleum Registry of Alberta

The Petroleum Registry of Alberta Service Desk is the focal point for communications with the Registry regarding preparations for, access to, or utilization of the Registry. To contact the Petroleum Registry of Alberta Service Desk call: 1-800-992-1144.

Alberta Energy Internet

Prices, Royalty Rates, and Transportation Information are available on the Alberta Energy Internet address: www.energy.alberta.ca, from "Our Business", navigate to "Natural Gas", "About Natural Gas", "Prices", "Alberta Natural Gas Reference Price (ARP)".

In addition, both the Gas Royalty Calculation Information Bulletins and Information Letters are also available under "Our Business", navigate to "Natural Gas", "Legislation, Guidelines & Policies".

Gas Royalty Client Services

Gas Royalty Client Services is structured as a Business Associate client portfolio system, which assigns a given Business Associate to one of four Client Service teams. Listed below is the portfolio breakdown along with Client Service Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the "Gas Company" you would call C – G team at 780-644-1202.

Business Associate	Phone Number and E-mail Address	Team Lead
Numbered companies, A, B & L	780-644-1201 GRCST1@gov.ab.ca	Mary Spearing
C – G	780-644-1202 GRCST2@gov.ab.ca	Todd Atwood
H – P (excluding L)	780-644-1203 GRCST3@gov.ab.ca	Chris Nixon
Q – Z	780-644-1204 GRCST4@gov.ab.ca	Jyoti Bhambhani

Gas Royalty Reception: 780-427-2962
Fax: 780-427-3334 or 780-422-8732
Alberta Toll Free: 780-310-0000

Hours of operation are 8:15 a.m. to 4:30 p.m. Voice messages left after 4:30 p.m. will be answered the next business day.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the "Supra" business associate, or Royalty payer.

Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the "Supra" business associate (Royalty Payer).
   i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas, you would call Team 4 (Q-Z) (780-644-1204) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.

2. **Asset Purchase** - Call the team responsible for your company.
   i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & L) (780-644-1201) because you have only purchased assets.

3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.
   i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 3 (H-P excluding L) (780-644-1203) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.
